

# NADAC Height Card Info

---

- Dogs must have a height card once they are over 2 years of age.
- Dogs under the age of 2 are **not** required to be measured at trials.
- If the dog is within 1” of measuring into the next height group, a measurement by a second judge is required.
- A height card is required to enter NADAC Championships. If the dog is entering Championships under the age of 2, they will be required to be measured at the event.

## Breed Exemptions

- Dogs who are on the breed exemption list must still be measured at their Proficient height.
- When you receive your height card you, will see the lowered height listed along with an “E” to mark it as a breed exemption height card.
- Please see the NADAC rulebook for breeds and rules for breed exempt height cards.

## Video Submissions for Height Cards

- Handlers can submit video measurements for dogs, if measuring at a trial is not an option.
- Videos must clearly show that the wicket is the correct height with a tape measure.
- Videos must clearly show the wicket on the dogs wither, and that the wicket is touching the ground.
- Videos can be submitted for review to [support@nadac.com](mailto:support@nadac.com)
- A video submission does not guarantee a height card, the video must be approved through the office.
